SKILLS

- Programming:
Python, Java, Scala, SQL, PowerShell
- Web Development:
React.js, Tailwind CSS, HTML, CSS, JavaScript
- Infrastructure & Tools:
Microsoft Azure, SCCM, Git, Docker, Active Directory
- Prototype Tools:
Figma, Framer, Adobe PS

EDUCATION

- BSC COMPUTER SCIENCE**
Vrije Universiteit Amsterdam
2023 - July 2026
 - Microsoft Azure fundamental (**AZ-900**)
 - Object-Oriented & Functional Programming
 - Computer Networks
 - Operating System
- BSC PUBLIC FINANCE**
Central University of Finance and Economics
2021 - 2023

LANGUAGE

- ENGLISH - FLUENT
- CHINESE - NATIVE

WORKING EXPERIENCE

IT AUTOMATION ENGINEERING INTERN

Delta Electronics EMEA

September 2025 — February 2026

- Developed a one-click python application which automated the process of software uninstallation, installation and residual file removal, and deployed it to 800+ terminals via SCCM
- Implemented Python scripts to audit Active Directory for inactive devices and monitor password security compliance across EMEA
- Delivered Tier 1&2 technical support for EMEA region, resolved 207 tickets, authored SOPs and technical documents

RESEARCH ASSISTANT

International Institute of Green Finance

February 2023 — July 2023

- Analyzed ESG data for 220 companies using Wind Terminal

PROJECT EXPERIENCE

ENTERPRISE SOFTWARE AUTOMATION TOOL (ADOBE)

PowerShell, SCCM, Windows Registry

- Developed a PowerShell automation script to trigger uninstallation and delete residuals by tracing Registry GUIDs
- Authored SOPs for users (700+ views in one month) and troubleshooting guides for technicians

INTERACTIVE PHOTOGRAPHY PORTFOLIO

React.js, Tailwind CSS, Netlify, Git (CI/CD)

- <https://jiaqii7.netlify.app/>
- Designed and developed a fully responsive Single Page Application (SPA) using React.js and Tailwind CSS
- Established an automated deployment pipeline via Netlify linked to GitHub, enabling instant updates and version control.

RENTAL ALERT BOT (LETIFY OPEN SOURCE CONTRIBUTOR)

Python, Docker, PostgreSQL

- Extended an open-source Dutch housing notification telegram bot by adding an income requirement filter
- Automatically converted websites that offer an English option to English, making it convenient for expats.

"RED LIGHT GREEN LIGHT" (SQUID GAME INSPIRED) DISTRIBUTED P2P MULTIPLAYER GAME

Python, UDP Sockets, Multicast, Threading, Binary Protocol Design

- Architected a decentralized P2P network using UDP Multicast for peer discovery and a synchronized Lobby System
- Solved network latency/lag issues by implementing Dead Reckoning and Client-Side Prediction algorithms
